

Matfield Speeding (October 16 – November 13)

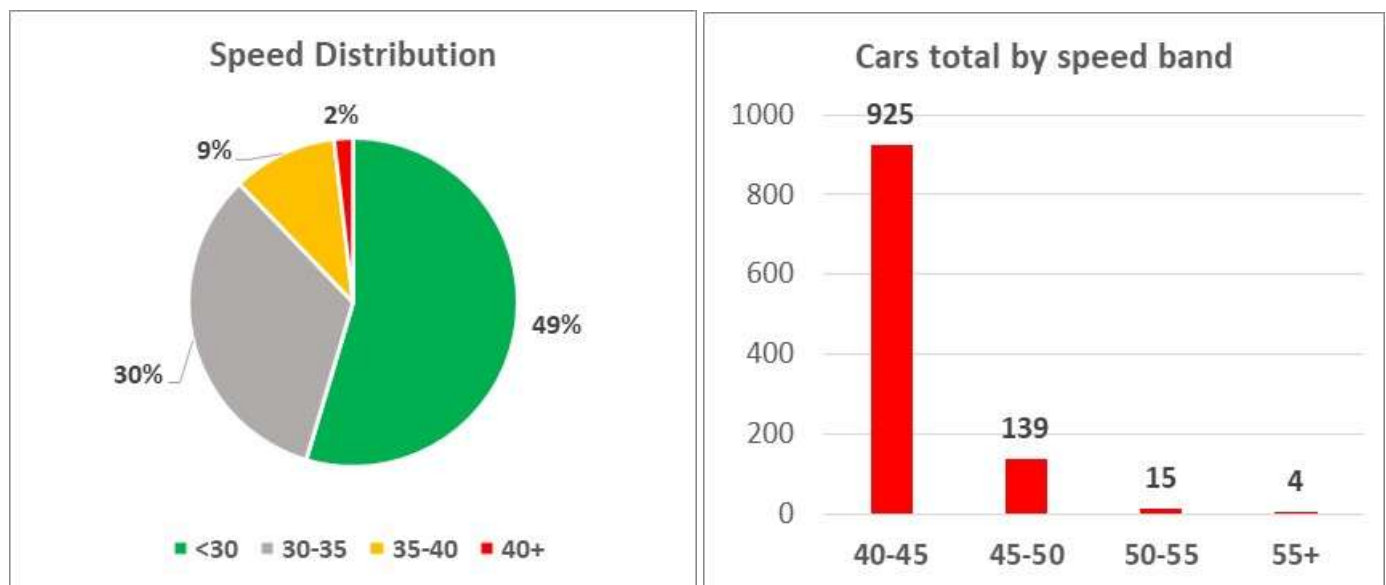

Homebush Green: facing Matfield

11% of cars exceeded 35 mph

This is only the second time the SID (Speed Indicator Device) has been located here – it only became a 30-mph zone earlier this year. Around 2200 cars a day passed this site on their way out of Matfield, well up on July's 1900. Encouragingly, the level of cars exceeding 35 mph dropped from 15% to 11%. It might be that more motorists are realising that the speed limit has changed.

Excessive Speeding

Around 2% of cars exceeded 40 mph which may not sound like many but this amounts to around 1000 cars during the period. Of these 19 were over 50 mph including 4 that were over 55 mph. All of the over 55 mph were early morning or late evening. But around half of the over 50s were during "normal" hours.

Speed band	Date and Time
55-60 mph	19/10/2025 01:20
	24/10/2025 01:55
	10/11/2025 01:15
	13/11/2025 02:10
50-55 mph Day only	18/10/2025 18:35
	24/10/2025 08:55
	30/10/2025 16:20
	04/11/2025 15:10
	08/11/2025 17:40
	08/11/2025 18:35
