

Brenchley Speeding (May data)

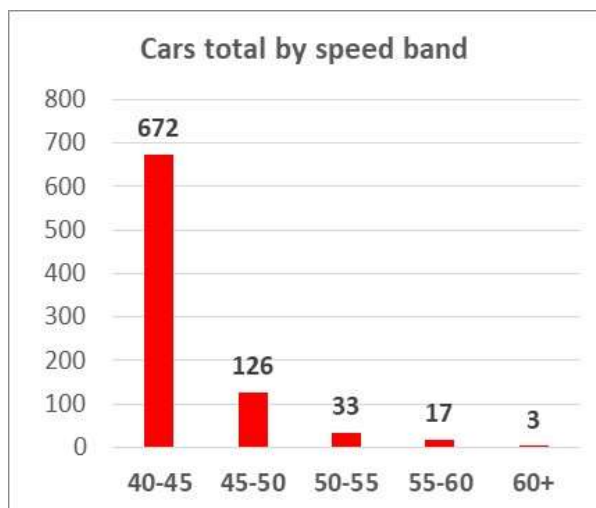

Market Heath: traffic coming from Brenchley

6% of cars exceeded 35 mph

During May, around 5,000 cars were over 35 mph, 6% of the total. This percentage is around half the level of some sites in the parish simply because parked cars and blind bends make it harder to speed. Around 800 cars were over 40 mph.

Excessive speed

Twenty cars exceeded 55 mph during May, including 3 over 60 mph. The latter were all at 3am in the morning. The “55-ers” included 3 cars at 7am when there are obviously more pedestrians around.

55 mph plus

Speed band	Date and Time
60-65	16/05/2025 03:15
	17/05/2025 03:05
	20/05/2025 03:35
Daytime	
55-60	09/05/2025 07:15
	10/05/2025 07:10
	18/05/2025 07:25

This chart shows the distribution of speeds by time. The dip in speeds around 4pm is probably related to school pick up. (The purple squares were during half term).
