

Brenchley Speeding (March 2025)

Location: Brenchley Memorial Hall, facing Matfield, **Period:** 29 days data

Around 2,500 cars a day drove past Brenchley Memorial Hall towards Matfield. A little over 150/day or 6% were over 35. This is lower than the percentage in Matfield but most of the sites in Brenchley have poor vision and cars parked nearby, encouraging “responsible” drivers to moderate their speed.

Excessive speeding: In total, 32 cars exceeded 50 mph during the 29-day period, with 4 exceeding 60 mph. Most of the excessive speeding was during the early morning or late evening. Although such levels of speed are deplorable, at least there are few pedestrians and other drivers around. **But one car was over 55 mph at 10:20 on Monday 17th March.**
