

# Brenchley Speeding (June 2025 data)

**Location:** Brenchley Hall, facing Matfield,

## Cars exceeding 35 mph

Around 2,900 a day drove past Brenchley Hall from Matfield. Only 6% of these were over 35 mph. This is towards the low end of the normal “Brenchley” range. This probably reflects the level of on-street parking near the school/hall compared to other sections of the Brenchley Road

**Excessive speeding:** In total, 45 cars exceeded 50 mph during the 29-day period. Of these 16 were between 55 and 60 mph and 1 was over 60 mph.

The tables below show the dates and times of excessive speeders. Only daylight speeders are included for the 55-60 mph band. At least the 60mph plus car was at 2.25 am when few motorists or pedestrians will have been around. Perhaps more worrying are the motorists who felt it was acceptable to drive through Brenchley at over 55 mph in the middle of the day/early evening.

| Speed band      | Date and Time    |
|-----------------|------------------|
| 60-65 mph       | 19/06/2025 02:25 |
| Day (55-60 mph) | 04/06/2025 10:35 |
|                 | 14/06/2025 19:10 |
|                 | 25/06/2025 12:35 |
