

Matfield Speeding (April/May 2024)

Matfield Village Hall SID, facing Kippings Cross, 3 weeks from April 15 till May 5

Key Issues

Average weekly traffic number (one-way) was around 27,500, roughly 1000 a week above March's level, perhaps reflecting better weather.

Of these, around 2,300 were above the police definition of speeding (over 35 mph) well above March's 2,100 a week.

In the three-week period, nearly 50 drivers were over 50mph, mainly in the early morning or late evening. But there was one at around 9am (23/4/24) and another at 1.45pm (25/4/24)
