

Brenchley Speeding

Corsica Villas: traffic coming from Matfield (Sep 19th till Oct 15th)

- Around 2,600 cars a day drove towards Brenchley from Matfield over the 27 days. About 6% of these were over 35 mph, a little lower than the 7% seen in June.
- Around 550 cars (17/day) exceeded 40 mph, a little below June, the last time the SID was in this position.
- In total, 31 cars exceeded 50 mph. Two were recorded in excess of 60. This is astonishing given the narrowness and poor visibility of this section of road, especially as one was recorded at mid-day.
