

JANUARY 2024 WEEKDAYS: Position 3 (BMH facing Matfield) JAN 8-12

JANUARY

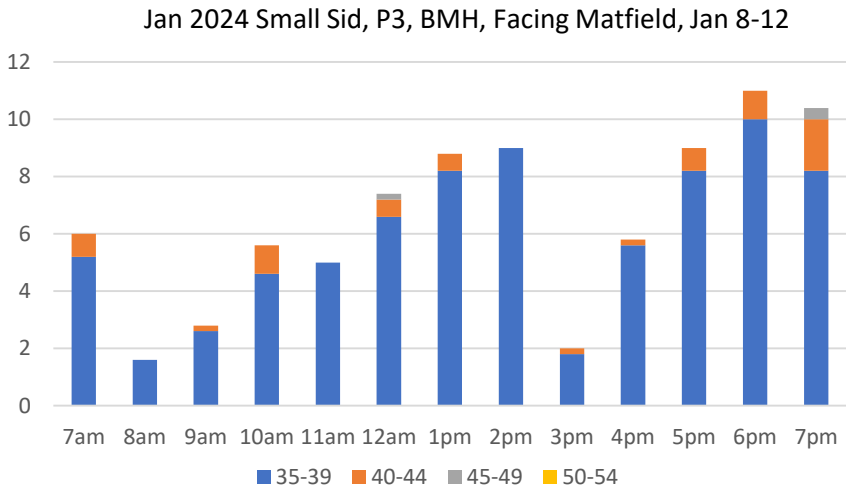

We had one 60+ speeder who went through just before 10pm on 12 January. That is shocking given the narrow road and lack of visibility on the bends.

Relatively low level of weekday speeders – around 80 a day versus over 200 in Matfield. Weekend number around 70/day.

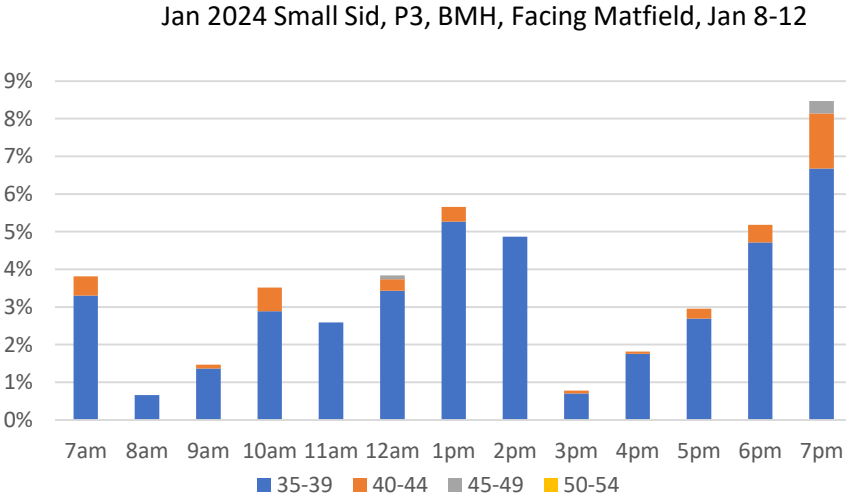

Percentage weekday speeders highest at lunchtime and in early evening. Real lull at 3pm – due to school pick-up.

Weekend speeders highest around 7-8am.
